

Pacheco Elementary Chess Club

Monday after school until 3:15

Meet in the Library

The Pacheco Chess Club will be starting up again on Monday, September 11th in the Pacheco Library. **Students in 4th, 5th, or 6th grade** that are serious about wanting to learn or improve existing skills are welcome. The first 20 students to reserve a spot will be accepted (because of limited sets and boards).

Studies have shown that students exposed to the discipline, patience, and creative problem solving involved in chess often see improvements in all areas of their schoolwork. Chess is a standard part of the curriculum in many countries for this reason. Chess is also a ton of fun!

There is no charge for this club but we'd love any assistance you can give (chess knowledge not necessary).

Please contact Michael McCreary (michael@slochess.com) with any questions and to reserve a spot.

See you there!
